

## Christmas in the Philippines

The endless waiting comes finally to an end. The package full of chocolate, which we yearly send to the Philippines and became something like a tradition to us, has arrived.

It is a special event to get a package from Germany for Nicole, Marie Antoinette and Art Louis. Family is the most important thing for the people in the Philippines. Therefore Christmas is their favorite vacation where they can spend the time with the family which is the best present of all.

After opening the presents they usually go to an amusement park to spend more time together.
